INSPIRED ACCESS

Smart Logistics Suite

Innovative solutions for efficient parcel management

Cloud solution for efficient package distribution within your company

Optimize your package management with our smart logistics solution.

Our smart system transforms logistic processes and enhances security. It enables seamless digitization of package logistics across various industries. Benefit from an advanced, connected system that provides flexible and scalable logistic solutions. Tailored and integrated features offer limitless possibilities to make package distribution more efficient and secure.

Smart Logistics Suite

The Gantner Smart Logistics Suite is a cloud-based, scalable solution consisting of integrated hardware and software components that can be customized to meet your specific needs.

01

Application

Ideal for companies and organizations of any size seeking to make package distribution both safer and smarter.

02

Technology

An all-in-one logistics solution with perfectly coordinated software and hardware components that can be operated stand-alone or seamlessly integrated into your software.

03

Capability

The Smart Logistics Suite centralizes the efficient distribution of packages. Automatic notifications allow recipients flexible 24/7 pickup, while the sender receives instant pick-up confirmation.

04

Performance

Robust hardware and software for high availability and reliability.

Logistics solutions for packages, IT equipment, and documents

The number of parcels is constantly growing while the associated logistics are becoming a challenge. Smart locker systems are a safe, convenient, and easy-to-manage solution. They automate the delivery notification and the parcel tracking process. Save resources and increase the service for your employees at the same time.

Benefits

Scalable

The logistics solution can be integrated into all locker types and is scalable to your needs.

Secure deposit

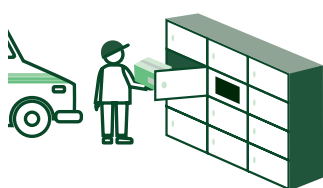

All transactions are documented, and the supply chain can be tracked.

Easy handling

Benefit from 24/7 parcel pick-up with smartphone, PIN code, or employee ID.

Functionality

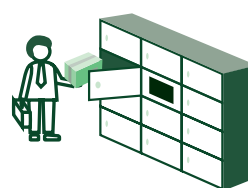

In just four simple steps, the package is delivered from sender to recipient.

About Gantner

Who we are

To revolutionize how organizations operate through enhanced solutions that ensure seamless experiences.

We develop reliable and smart identification, access, cashless payment, and locker solutions that automate and digitize business processes to maximize organizational efficiency and security.

Through cutting-edge technology and years of experience, our deep understanding of market needs leads to the creation of innovative solutions that benefit our customers in their daily operations.

Empowering smarter access

SALTO WECOSYSTEM is more than a group of companies and individuals.

We're a community born out of a common goal: empowering access, in every sense - access to places, experiences and opportunities.
